

Digital Learning Designer – Intern

Job Purpose

Our Digital Learning Department is growing and we are looking for a designer to join our team. We are seeking a creative individual who is passionate about providing top customer service, creating beautiful graphics/visuals, always looking for ways to improve the end-user experience, and making a difference in the way people learn online.

Job Responsibilities

- Work closely with the e-learning developer to understand the storyboard and their vision for the end product
- Work with the client to ensure all assets created to align with their brand guidelines
- Ensure digital learning assets (2D Animations and interactive e-learning modules) are developed in line with the storyboard approved by the client
- Advise the team on best practices when developing eLearning courses
- Proactively look for new tools and technology that will enhance our offerings

Technical Skills

- Strong knowledge of Vyond to support the creation of short 2D learning animations
- Strong knowledge of Articulate Storyline in creating interactive learning courses
- Graphic design experience with the following Adobe products: Indesign, Illustrator, PhotoShop
- Strong computer skills including MS Word, Excel, PowerPoint, and Outlook
- Experience in audio/narration, as well as video editing, is an advantage

Who You Are

- Excellent verbal, written, and interpersonal communication skills with a high degree of accuracy and attention to detail
- Works well under deadlines and manages multiple projects simultaneously
- Ability to be proactive, follow directions, make decisions, problem-solve, and adapt to change
